

## CHESHIRE CURTAINS AND INTERIORS

Cheshire Curtains and Interiors are proud to have become one of Cheshire's leading designers, suppliers and fitters of bespoke, made to measure blinds and curtains. With over 40 years' experience, our interior design service aims to maximise the potential of your space, bringing character and personality, as well as functionality into your home.

## INTRODUCING THE PROJECT

Mulberry Park is a stunning development set within the historic Cheshire town of Macclesfield. This elegant, newly built Redrow property has open family-centred spaces, combined with a modern aesthetic. Prior to moving in, the client appointed the Cheshire Curtains and Interiors team to install Venetian blinds, ensuring privacy during the move. Right from the installation of the blinds, discussion developed almost immediately about possible interior design concepts for the property.

## DESIGNING THE PROJECT

The client was very open to suggestions and advice regarding the aesthetic of the interior spaces. We collaborated closely through discussion to gain a clear understanding of the client's requirements, which was for the property to be presented with modern styling throughout. There were 10 rooms in total to be completed, and following the conversation, mood boards were prepared for the client to approve, along with a detailed estimate for the project. The client was thrilled with the proposal, and once all elements were accepted, it took four weeks for all tailoring to be completed.

## THE SELECTED BRANDS

We created an exquisite custom-made headboard using high quality fabric from Wemyss Weavecraft.

We chose a stunning selection of fabrics from Harlequinn and Bennett Silks to design bespoke curtains for the master bedroom, lounge, dining room and snug.

We selected cutting-edge lighting designs from Heathfield & Co for creative lighting throughout the property.

We worked with Voyage Maison to coordinate the look of the furniture for the lounge, dining room and snug to create bespoke, modern pieces for our client.

## THE INSTALLATION

It took three days for the installation of all bespoke pieces. Cheshire Curtains and Interiors tailored the blinds, curtains, headboards, cushions and bed throws, to deliver unique design concepts from the initial idea to completion, and finally installation. The staging of the home also included sourcing picture frames and mirrors to give this newly built property the feeling of home. Due to Cheshire Curtains and Interiors' broad understanding of all design elements, the client was delighted with the completion of the interior design project.
